## How SYN-AKE Works Wonders on Wrinkles?

Amazingly potent and safe to use **SYN-AKE®** works to reduce wrinkle depth, increase skin firmness, smooth and revitalize the skin.

Research and development has gone into the study and creation of what is perhaps one of the most important and effective, safe and natural compounds to ever see the light of day in the skin care, **SYN-AKE®**.

The power of this compound is both scientifically and clinically proven to reduce wrinkle depth quickly. **SYN-AKE®** is an active compound based on a synthetic tripeptide that mimics the effect of waglerin 1, a peptide that is found in the venom of the Temple Viper.

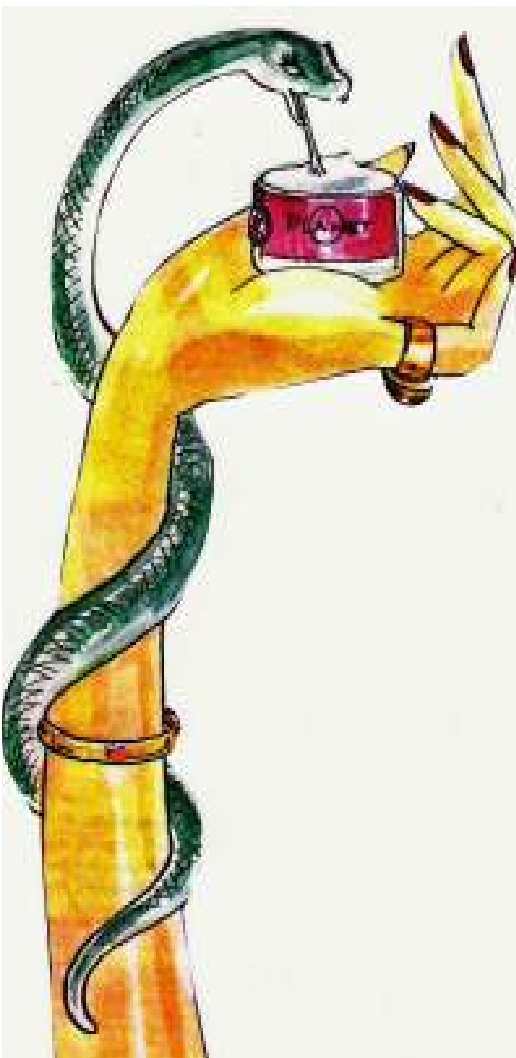

This compound was awarded numerous patents and was so effective that it was also lauded by the Swiss Technology Awards, because it was proven to reduce wrinkles by up to 52% and to create a smoothing effect by up to 82% within the first few weeks of application.

**SYN-AKE®** offers comparable and side effect free, over the counter solutions to the dangers associated with using popular skin injections.

Men & women of any age or skin type can use Planet Skincare and benefit from the remarkable results.

Pepha-Tight® - A Skincare Revolution - Wrinkle Test

Star Ingredient Pepha-Tight® a unique algae-based skin tightener: it tightens the skin immediately and at the same time provides a long-term effect by strengthening the skin's connective tissue by increasing the formation of collagen-1 to visibly smooth lines and wrinkles giving skin a tighter and firmer appearance.
